WIRE-O LHERMITE UNICOIL

DOCUMENT FINISHING SOLUTIONS

FEATURES AND BENEFITS

- The **EX 600 Value** is available with a conveyor reception only. It will punch pre-collated printed documents with or without mixed stocks which will be re-delivered in the pre-collated sequence.
- It will take up to 600 mm long sheets which combined with the max punching width of 600mm allows to punch a wide variety of documents ranging from small booklets up to large size calendars.
- The separator beak and feeder air blower provide optimum feeding consistency especially with mixed stocks and large format sheets.
- Paper can be loaded continuously without stopping the machine by the means of lightweight aluminium trays rising automatically.
- Byte thickness can be adjusted to take a maximum of 2.0mm according to the paper quality.
- Sheets are automatically aligned in both directions and there is no contact with the transport belts during the punching to ensure unmarked sheets.
- Tool and format changeover are easy and very fast.
- Conveyor reception enables to run the machine non stop which provides high output and optimum productivity / operator

MAIN TECHNICAL CHARACTERISTICS

Maximum sheet sizes (mm)	600mm (punched edge) x 600mm
Minimum sheet sizes (mm)	110mm (punched edge) x 95mm
Maximum byte thickness	2mm
Paper thickness	60 to 500 gsm
Maximum punching speed	45 cycles / minute for sheets over 530mm long 90 cycles / minute for shorter sheets
Power supply	380V / 3ph / 50Hz
Air supply (not included)	6 bar (if feeder air blower is being used)
Machine dimensions (LxWxH)	2.80m x 1.32m x 1.40m
Conveyor foot print (LxW)	1.50m x 0.70m
Net weight (incl. conveyor)	1,300 Kg
